

# PCB WORKSHOP

DECEMBER 10, 1980

## THUNDERBIRD MOTOR INN (Jantzen Beach) PORTLAND, OR

This workshop is an extension of the PCB Workshop sponsored by NWPPA on October 17 of this year. After that workshop, several of the participants and attendees got together and discussed the results. They felt that NWPPA should follow up with another one-day workshop geared toward utility actions and requirements relating to Environmental Protection Agency regulations.

NWPPA contacted many others who had attended the October workshop and the vast majority agreed that there was sufficient interest and need for more information on these topics. The result of all these discussions is the program that has been assembled for December 10.

This program includes a panel of utility representatives supplemented by James Everts, EPA's top man in the region on the subject of toxic substances, including P.C.B.'s. Everts will make a presentation and then be available for several hours of answering questions on this important subject.

WHEN AND WHERE--The PCB Workshop will be held Wednesday, December 10, 1980, at the Thunderbird Motor Inn (Jantzen Beach) in Portland, OR.

TO REGISTER for the workshop, just return the enclosed workshop registration card.

FOR MOTEL ACCOMMODATIONS, just return the enclosed motel room reservation card directly to the Thunderbird Motor Inn (Jantzen Beach) by the designated return date.

For further information on this one-time only workshop, please contact the NWPPA office.
